EUROPE IS SWEEPED BY FEARFUL FLOOD

Towns Inundated, Property Is Destroyed, Lives Lost.

Stories of death and the sufferings of survivors are brought by refugees from the flood valley of the Ahr. The waters are rapidly subsiding, but while at their height they wrought frightful damage.

Several villages on the banks of the River Ahr were literally washed away. Houses, collapsing, buried their occupants beneath the flood. So strong was the current that it swept away locomotives and steam road rollers as a child might scatter its toys.

In some instances where the villages, driven from their homes by the waters, lacked time to reach the hillsides, they clung to the branches of trees, only to be drowned as the rising waters tore the trees up by their roots and bore them away.

Near the mouth of the Ahr river a rowing party recovered the bodies of a woman and an infant. The little one was tightly clasped in the mother's arms.

Buried Beneath Waters.

Inundations begun by swollen streams in the eastern and central districts of Switzerland have caused immense damage. A landslide at Alfort buried a factory building, killing a woman and ten children employees. Bridges swept away.

Unprecedented rains throughout Belgium have been falling in the lower lying districts, causing heavy losses. Bridges have been carried away and stock drowned. The village of Moos has been devastated.

35 Lives Lost.

Floods, following torrential rains, have caused havoc in the valley of the Morava river. Thirty-five lives have been lost. The towns of Chupria, Jagodina and Sivilatz have been inundated. Water to a depth of from seven to ten feet has filled the streets. Many houses, undermined, have collapsed.

Many Towns Flooded.

The waters of the Lake of Constance have risen rapidly, flooding the lower streets of the various towns along its banks. Railway tracks have been submerged and on several railroad lines traffic has been suspended.

GENERAL. By voting various financial measures and cutting notes out items in the annual appropriation and supply bills, Governor Hughes has reduced the annual New York state appropriation by nearly \$5,000,000. Appropriation bills passed by the state legislature totaled \$45,750,000. After they had been blue-penciled by the governor and reduced \$2,555,000 contributed to the sinking funds, the total has been reduced to \$43,601,200, a saving of \$4,743,700. The appropriation for last year amounted to \$36,242,100.

A monument to the memory of the late Dr. William H. Felton was unveiled at Cartersville, Ga., Sunday afternoon, a crowd of more than 2,000 people being in attendance at the unveiling exercises.

Through the office of state secretary at Dallas, Texas, Chairman A. B. Story, of the state Democratic executive committee, has sent out a call for the Democratic convention to be held at Galveston on August 9. All state officers are to be nominated at this convention. The campaign is very bitter between the four gubernatorial candidates, prohibition being the principal question.

President Taft has accepted an invitation to visit the Appalachian exposition at Knoxville, Tenn., the latter part of September. The date will be fixed later. The president on this trip will also visit the Tennessee state fair at Nashville.

By a vote of 4,982 to 988 the people of Birmingham, Ala., have declared for a commission form of government. The question will go to the next legislature. C. Culpepper Brown was elected mayor and George Bodeker was re-elected chief of police.

A remarkable operation has just been performed at the post-graduate hospital by which a man has been provided with an artificial jaw of pure gold to replace a jawbone destroyed by disease. The operation is said to be the first of the kind ever performed in a New York hospital. Michael Wood, 54 years old, of Greenwich, Conn., is the patient.

Charleston, S. C.'s population is estimated by the census to be about 60,000, which is something less than was expected, but which, it is thought, by the withdrawal from this city of some 10,000 negroes in the past few years. The proportion of white citizens is increased.

A Providence, R. I., dispatch says: Colonel Samuel P. Colt is a candidate for Senator Aldrich's place, according to an announcement made by General Chas. R. Braxton, the Republican boss. Senator Aldrich is said to favor the candidacy of Henry S. Lippitt.

The management of the San Antonio and Arkansas Pass railroad has granted an advance in salaries to all telegraphers on the road, amounting to about 5 per cent, and has also granted considerable concessions in the way of shorter hours.

SAY NEGRO WAS SOLD FOR YEARS.

Federal Grand Jury Investigating Matter. Montgomery Advertiser.

Ada Freeman, a negro woman, with a baby in her arms, sold all her hogs in Coffee county a few days ago in order to come to Montgomery. She wanted to appear before the Federal grand jury to secure the release of her husband, who, she declared, was sold from farm to farm by the white men of Coffee county. The term of the grand jury was prolonged in order to investigate her story, and a report of their finding will doubtless be made within a few days.

The woman said her husband had been arrested in Coffee county in 1902 for carrying concealed weapons. At the preliminary hearing, a farmer appeared before the trial magistrate, and confessed judgment, paying the fine of \$125 assessed. The negro then entered into a contract, it is said, whereby he was to receive \$5 a month for his work, clothing and food. The \$5 a month was to be credited in payment of the fine which the farmer had paid to the magistrate.

Freeman, so his wife states, worked for the farmer for eighteen months, and the farmer then sold him to a neighbor at a profit, it is said. The negro was again sold, and, according to his wife, the original debate grew with each transfer. This sale of Freeman continued until three years ago, when his wife said he ran away into Florida.

His last purchaser, according to the woman's story, had Freeman indicted on the charge of breaking a contract, and also on the charge of having obtained money under false pretenses. He was brought back into Coffee county, and again entered into a contract similar to the first one.

He worked for about a year, and is said to have been transferred to another farmer, who, in his turn, sold Freeman to a neighbor. The transfer of the negro had gone on for about eight years, and the negro woman appealed to the Federal grand jury to put an end to the matter. The appeal to the grand jury came when Freeman refused to work longer, saying that the farmer refused to furnish food for the mule he worked the fields with, and further refused to allow his wife, five children and himself sufficient food. On his refusal to work Freeman was placed in the Coffee county jail at Elba, according to the negro woman's story.

On the day that Freeman's wife told her story to the Federal grand jury a writ was issued from the United States court calling upon the sheriff of Coffee county to produce Freeman as a witness before the Federal grand jury. Subpoenas were issued at the same time for various farmers of Coffee county, and they have given testimony before the grand jury for the past three days.

It is understood that the government is taking a great deal of interest in the case, for it is thought that it can be shown that the machinery of the state courts in enforcing the statute concerning these contracts for labor works great injustice, and is often misused.

Freeman is now at the Montgomery county jail awaiting action of the grand jury in the matter.

Helms Family Reunion

The twelfth annual re-union of the family of Mrs. Martha Helms was held at her home in North Coffee of the fourth of July. There were present, from several different counties, eight children, thirty-seven grand-children, and six great-grand-children, also a large number of friends.

As is the custom the family assembled early in the day and organized a singing class, with M. W. Helms as chairman. Then followed the programme as follows:

The morning lesson was led for fifteen minutes by each of the following: T. A. Helms, J. W. Helms, A. C. Helms, J. H. Ward, M. A. Helms and A. F. Helms.

At noon an hour was given for refreshments, and a beautiful repast was thoroughly enjoyed by all present.

In the afternoon there were lessons led by Levy Johnson, Charley Helms, C. F. Corbett, then a recess of ten minutes, followed by lessons of three songs each by eight: Melvin Chapman, L. Hudson, A. J. Clowers, R. E. Culliver, Joel Helms, W. J. Wilkins, A. B. Brooks, L. J. Wood.

After a day of pleasant association and enjoyment the class was adjourned by the chairman to meet again on July 14th, 1911.

The devil seems to have broken loose in Alabama last week, and from all sections came news of murders, assaults, and other crimes of like kind.

Family Reunion.

The family of Mr. N. G. Baker met in re-union at the home of Mr. J. F. Patterson, in Victoria, on the 4th.

Those present were J. N. Baker and Mrs. M. A. Whitson, of Pike county; O. G. Baker, of Dale; Mrs. J. F. Patterson, Mrs. J. E. Brooks, Mrs. C. R. Tindal and J. P. Baker, of Victoria. Mrs. G. L. Smith of Opp, was the only living child not present. There were a large number of grand-children, and a few great-grand-children, with many close friends also in attendance.

The day was spent in singing Sacred Harp songs, and some fine music was made, as there are a number of good voices in the family. The dining room was so small to accommodate the crowd so the tables were spread in the yard where a fine dinner was enjoyed by all.

In the afternoon many photographs of the family in different groups were made.

Mr. Baker, head of this large family, was born in Oglethorpe, Ga., July 4th, 1838. He moved to Pike County in 1842 where he married Lucie Bontwell in 1857. He then moved to Victoria and has resided there continuously since.

In 1862 Mr. Baker enlisted in the confederate army and served through the war. He made a good soldier and was in a number of battles. He has always been a good man and a good citizen, doing his full duty to family and neighbors, and has at all times been ready and willing to help those in need.

He now resides with his daughter, Mrs. J. F. Patterson, at Victoria, and at the age of 77 still manages to get much joy out of life and to lend a helping hand on many occasions.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Notice About Commissioners Court.

The commissioners' court meets under the law in regular sessions for the transaction of general business on the second Monday in February and August, at Elba, and on the first Mondays in April and November, Enterprise. Under the law as it was before the recent change, the July term of court that will be held at Elba beginning July 11th next, was a general law as tax term. But under the law it will be only a tax term, and persons who have bills against the county, road business and general business need not come, for at the July term only Tax matters can be passed on. This notice is given with a view to saving any persons who may have business with the court trouble of coming when it can not be taken up.

Given by order of the court.

S. N. Rowe, Probate Judge.

From Double-Head.

Mr. Editor:—As the old glorious fourth, that everybody loves, has just passed again, I suppose that I had better tell you just how it happened here. As for myself I had a real glorious day.

Mr. Lee Hudson and Miss Irene Grant spent a very enjoyable day at Mrs. Helms' family reunion. They report a good time and plenty to eat.

Our school commences this morning at Double-Head, Miss Irene Grant being the teacher. We can't help but be proud of her and wishing her much success.

Mr. Cyrus and Miss Amy Ross attended preaching at Center Ridge Sunday last. They got wet but had a nice time "you bet!" Ah! the good old big meeting will soon be on hand. Wont we go and eat "water millions" to a "solo finish."

Rally At Sandhill.

A letter from Supt. Byrd to The Clipper states that there was a very interesting educational rally held at Sandhill school house a few days ago, and that much enthusiasm was in evidence. It was resolved to begin the new school building in a short time.

The Sandhill Brass Band furnished some splendid music for the occasion.

Report That Alabama Soldiers Will Go to Nicaragua.

Montgomery, July 10—An officer of the Alabama national guard will pick 500 men at the encampment at Chickamauga next week who will volunteer for duty in Nicaragua, according to a report which has gained currency in Montgomery.

It is declared that the officer and his men selected will sail for Nicaragua soon after the closing of the encampment. The quota will be used to bring to an end the hostilities between the forces of Estrada and Madrid. It is not stated what side the Americans will fight on. It is averred they will form the nucleus of the peace or pass army in inspiring awe by their newly acquired military knowledge.

It can not be found out from what point the expedition will sail or any probable date.

DEATH HAS CLAIMED SENATOR DANIEL.

Mysterious Virginian Answers Final Summons.

John W. Daniel, senior senator from Virginia and for more than 30 years Virginia's favorite son, died at the Lynchburg sanitarium, Lynchburg, Va., his death being due to a recurrence of paralysis.

The immediate cause of his death was a cerebral hemorrhage sustained in the right portion of his brain, involving the right side. This was in addition to the paralysis of the left side, which was sustained last winter, while in Florida.

The statesman's illness began with slight attack of apoplexy in Philadelphia last October, this keeping him from being in his seat at the opening of congress last December. Only once since that had he appeared before the audience and that was for an informal talk in January.

The end was almost without a struggle. Dissolution was very rapid, for when the final and complete failure of heart action began, it progressed with great rapidity and in five minutes the patient was dead.

John W. Daniel was elected to the United States senate to succeed General Mahone for the term beginning March 4, 1887, and was serving his fourth term at the time of his death. He was a gallant Confederate soldier, serving as chief of staff to General Jubal Early, with the rank of major. He was thrice wounded during the war, the last wound received in the Wilderness May 6, 1864, crippling him for life. He was born at Lynchburg, September 6, 1842.

JUSTICE FULLER DEAD.

Life of Noted Jurist Comes to End. Chief Justice Melville W. Fuller, of the United States supreme court, died of heart failure at his summer home in Sorrento, Me., Monday.

Chief Justice Fuller was in his 70th year.

The death of the chief justice was entirely unexpected, as he had been apparently in good health lately and there had been no premature symptoms of any kind of trouble. Sunday he attended church as usual, and when he retired at night he was to all appearances in his customary health.

His daughter, Mrs. Nathaniel Francis, and the Rev. James F. Freeman, who was a guest of Justice Fuller at his Sorrento cottage, "Mainstay," were with the jurist when he died.

Chief Justice Fuller was in his 70th year.

The Alabama Baptists says some
folks have actually mortgaged
their homes to buy automobiles.
Well what does any one want with
a home if they can get an auto.

The legislature in Georgia has
prohibited the sale of soda water
and other soft drinks in one town
of that state because the boys
from a near by college spent all
their money, and then some more,
at the fountains. If this isn't the
limit, where is it? Next they will
be prohibited the sale of gum
in seminary towns, and proscribing
the length of morning and
evening prayers.

The dairy interest of this country
is said to represent an investment
of seven hundred million
dollars, and dairy products are
sold to the amount of one billion
dollars each year. It is nothing
very uncommon now for a good
cow to sell for \$250, and some of
them bring several thousand.

The booster spirit seems to
have struck Alabama full in the
face, and it's a mighty dead town
that doesn't boast a booster club
or some other kind of "pulling"
combination. It is the right
spirit and is going to bring results
of the right kind.

Government post office agents
are after newspapers now for carrying

enclose railroad tickets along with
the summons, or make walking
dates.

It does with that the amount
of money appropriated each year
by the state to colleges that a
college course should be in reach
of most any child in the state.

But a glance through the various
catalogues will show that it takes
a good deal of cash to get through
these "polish" factories.

An auction sale of thorough-
bred Jersey cattle recently held
at Coopersburg, Penn., \$8,000 paid
for a cow, and a bull brought,
\$11,100. This was the highest
price ever paid for a cow. Several
millionaires were bidding at the
ring during the sale and several
cows brought as high as \$1,800.

And now comes the complaint
that Supreme Court Judges are
over-worked, that they can't keep
up with their business, and a new
court must be established, and a
new lot of lawyers given fat salaries
to relieve the strain. When-
ever we hear of overworked state
officials it wrings our hearts with
pain, and we are suffocated with
awe, at the noble patriotism that
moves these gifted men to sacrifice
their invaluable lives on the altar
of their state. It is simply heart-
breaking to see how these noble
sons of our great state sweat and
work. Nearly every week day
(when not on a vacation) they are
at work by ten o'clock in the
morning and very often are
strained down to work until after
three in the afternoon, with only
an hour and a half or two hours
for dinner. Thus they put in
some four or five hours a day at
work for several months during
the year. It is a most strenuous
life and some few of them have
resigned to rest, rest! and other
have died under the strain at less
than an hundred years of age.

Surely the hearts of a generous
people will be touched by this
pitiful spectacle of over-worked
judges, and they will joyfully go
down in their hands and dig up
the dough to establish another
court, or two courts if necessary,
to relieve the strain.

Carelessly compounded pre-
scriptions are not always danger-
ous but they will nullify the skill
of the best physician in the world.
Therefore you should take your
prescriptions where you know they
will be filled accurately and care-
fully—just as they are written.

A SANE FOURTH.

Total of 28 Dead Reported Against
Total of 44 Last July Fourth.
The restrained observance of the
Fourth of July has resulted in a ma-
terial decrease in the number of cas-
ualties in the country, according to
figures compiled by the Chicago Trib-
une.

This year's list of dead throughout
the country so far reached is 28. Last
year the same total was 44. The
whole number of injured last year was
1,361. This year there were only 1,
728.

Only One Killed in New York.
Five persons were killed July the
Fourth, 1909, and but one death was
due to fireworks in New York city.
Three hundred and thirteen were hurt
by fireworks, cannons and pistols last
year and only 99 Monday last; there
were 116 fires a year ago; Monday
there were but 38, all insignificant.
This is a showing over which the ad-
vocates of a sane and sane Fourth are
entitled to boast.

\$800,000 FIRE LOSS.

Business and Residential Section of
Benton, Pa., is Wiped Out.
A fire which did damage amount-
ing to approximately \$200,000 destroy-
ed 60 buildings, made 30 families
homeless and wiped out the business
and residential section of Benton, Co.
Penn. county. An exploding fire
cracker thrown among the straw in the
barn of George Crossley was the cause
of the fire.

The fire broke out in the afternoon
and it was not until late at night before
the flames were under control. Fanned
by a high wind, the flames swept
through a residential street and soon
reached the business section of the
town.

DR. HYDE IS GIVEN A TERM FOR LIFE

Result of the Famous Swope
Murder Trial.

Dr. A. C. Hyde, convicted of having
poisoned Colonel Thomas H. Swope,
the millionaire philanthropist, was
sentenced to life imprisonment at hard
labor by Judge Ralston Latham, in the
criminal court at Kansas City, Mo.

An appeal to the state supreme
court was filed by Hyde's attorney,
and used it is taken up by the higher
court the prisoner will remain in the
county jail at Kansas City.
The doctor and his wife, who had
been by him faithfully, sat aside by
him and held each other's hands.
Judge Latham promptly overruled
the motion for arrest of judgment
and recommended Dr. Hyde to stand up.
Before passing sentence he asked the
prisoner if he had anything to say.
At this point Attorney Lucas, for
the defense, rose and said the court
he had nothing to say.

Judge Latham said he could not
grant bail.
The prisoner will be kept in the
county jail until the supreme court
has passed finally on his case, which
may not be for six months.

NINETEEN PERSONS KILLED.

Fatal Collision Occurs on Cincinnati,
Hamilton and Dayton
Nineteen persons were killed and
eighteen others seriously injured in
a head-on collision between a
freight and passenger train on the
Cincinnati, Hamilton and Dayton rail-
road at Middletown, Ohio. Of the
dead, three were passengers, the other
being a member of the passenger
train crew.

The trains were the Cincinnati sec-
tion of the Cincinnati Century Lim-
ited, and the Cleveland, Cincinnati, Cin-
cinnati and St. Louis railroad, Big Four,
and the second section of a freight
train on the Cincinnati, Hamilton and
Dayton railway.

The latter was attempting to make
a siding to give the passenger train
a clear track when the freight train
came at a rate of 50 miles an hour.
Struck across a curve and crashed
into it.

The "Big Four" train had been de-
vised to avoid a blocked track on
Grand road at Geneva, a few miles south
of here, caused by a freight wreck
earlier in the day. In addition to its
regular crew is carried a pilot engine
out of the Chicago, Hamilton and Day-
ton road, who was practically in
charge of the train.

A misunderstanding of orders caused
the disaster, which was one of the
worst that this section of the country
has ever experienced.

Three Negroes Lynched. Mobbed at Bay in the State of Alabama and Mississippi.

Henry McKinley, a negro 18 years old, has been lynched at the hands of a mob of Columbia citizens, according to Sheriff W. W. Butler, of Elba County, who returned to Debar, Ala. from that place.

The negro's wife is unknown, although he is supposed to have been married. According to Sheriff Butler, the negro made an alleged confession to having entered the room of a Miss Henderson, with criminal intent. He was caught soon afterwards and arrested in jail. A mob of fifty men and to have stormed the jail, secured the prisoner and to have carried him towards the Chattahoochee river. Nothing has been heard of him since.

Whole Remus Benefit. Theodore Roosevelt to speak in Atlanta, October 8.

Theodore Roosevelt will speak in Atlanta in the Auditorium-Armory, on Saturday evening, October 8, for the benefit of the Uncle Remus Memorial Association.

Colonel G. J. Paxson, chairman of the advisory committee of the association, has been in Elba, Ala., for the purpose of making arrangements with Colonel Roosevelt, regarding him to help along the work of the association by delivering an address in this city. Mr. Roosevelt, who is a great admirer of the late President, has agreed to do so, and all that remained was to fix the date.

Aviator Killed. Wings of Machine Doubled Up and Aviator Wounded. The opening of the second aviation meeting at Rhine, France, on the historic field at Bethany was marred by a fatal accident. Aviator Wachtel, who was killed, was the first of the contestants to appear for practice. In his Antonine monoplane he started along with the gate, and the enthusiasm of the spectators until the craft compelled him to make a descent. He resumed his flight in the afternoon and was flying magnificent, when suddenly an explosion was heard. The wings of the machine dropped and the monoplane crashed.

NEWS FROM IN A LAUDABLE EFFORT TO encourage the investment of American capital in Porto Rico and diversify the industries of that territory, the bureau of insular affairs has issued a statement presenting in alluring terms the possibilities of growing manufacturing and exporting cocoanuts and their by-products. It is said the nut thrives better there than anywhere else in the West Indies; that the trees grow wild along the sandy coast, requiring no care and thrive where other trees would not. A tree produces 100 nuts per year, put on the tree as 1 cent each, or were gathered at \$18 or \$20 per 1,000, and they sell at a profit of more than 100 per cent in New York.

Although President Taft would not discuss the question of a successor to Chief Justice Fuller so soon there is a strong impression among those close to the executive that Governor Hughes will be the next presiding justice of the supreme court of the United States. The death of Mr. Fuller means absolutely that the Standard Oil and the tobacco cases will not be reargued until next December.

All the rooms of the white house will be accessible to the public during the coming summer, for the first time in many years. Before leaving here, President Taft gave instructions that the building should be thrown wide open. As a rule only the public reception rooms are shown to visitors.

The East Indian cotton crop for the agricultural year 1909-10 will be 4,502,000 bales, an increase of 911,000 bales over last year's crop, according to the final memorandum of the East Indian government submitted to the state department by United States Vice Consul A. D. Jackson, of Madras.

GENERAL After a seven hour struggle the combined NEWS crews of 30-hourpower rowing clubs, boats, Good Partner and Pioneer I, captured a man-eating shark, 36 feet long, weighing about 15 tons, in the straits of San Juan del Mar, between Port Crescent and Port Angeles. In the shark's belly they found pieces of bones and a piece of a kofak plate.

A deal by the Louisville and Nashville railroad in the cotton belt and practical ownership of the St. Louis southwestern, known as the Cotton Belt, which has been pending for 50 days, and is expected to be consummated within the next 30 days, became known at St. Louis. The control of the Cotton Belt, it is reported, will pass to the Louisville and Nashville for a cash outlay of a little more than \$15,000,000.

THE ELBA CLIPPER TWICE-A-WEEK.

ONE DOLLAR A YEAR.

VOL. XIV. ELBA, ALABAMA, FRIDAY, JULY 15, 1910.

No 10

Prof. Benson Writes of Chicago. University of Chicago, July 9. To The Clipper, Elba, Ala.

It is Saturday afternoon, our week's work is over, and my roommate has gone to the baseball grounds to see a game between the Chicago and New York teams of the National League. But this weather is too hot for me to brave the steaming pavements and sky-scrapers of the downtown district. I spent two summers before this in the north and I know something about the fierce heat of the great cities, but this summer has so far been the worse in my experience. I remember that I shall have to go back to the "Sunny South" to keep cool. There have been several drenchings in this city each day lately from the oppressive heat. Refreshing breezes from Lake Michigan make the nights very pleasant. There has been but little rain here for the past two weeks, in marked contrast to the continuous rainfall in Alabama. We only hope that conditions will be exchanged soon.

The University of Chicago is situated in the coolest part of the city; near the lake and near the scene of the famous World's Fair in 1893. Its own grounds are extensive, and Washington park is near by on the west and Jackson park on the east. While it is one of the youngest it is among the greatest of America's Universities. Its wonderful growth is due to the fact that it came from the beginning, and Dr. Harper, a great educational leader, was its first president. His genius as an organizer has never been excelled. He was original in his methods, but did not hesitate to copy from others. Some of the most beautiful buildings here are reproductions of famous European colleges. This institution is now worth twenty-five million dollars, runs all the year round, and enrolls nearly six thousand students.

There are always many hundred students from the South and they maintain a Southern society. It is almost being at home to meet at this society, hear the soft accent and sing the songs of Dixie. At our meeting this week officers were elected, and Alabama carried off the first honor. Mr. Heflin, a brother of Congressman Heflin, being elected president. I feel some personal pride in the result as the new president gives me credit for managing his campaign.

Of course the University gave a holiday on the fourth. I went down to the business district of the city to see the parade. This was to be a "sane fourth." Herefore people have celebrated the fourth with fire works, thereby causing many fatal accidents. Patriotic leaders took the matter in hand this year and celebrated the occasion with an historical pageant. It was a great success. Fifteen thousand persons took part in the parade, and three hundred thousand spectators lined the streets. Remembering that Zachary climbed the stymore tree, I contrived to get in an elevated position, not a tree, where there was room for one more, and greatly enjoyed the spectacle. For two hours the parade passed by—soldiers, civic bodies, and forty historical floats. Three of the floats represented "Signing the Declaration of Independence," "Betty Ross Making the Flag," and "Inauguration of Washington." Some others were not so appropriate, such as "Lincoln's Log Cabin." Old Abe had nothing to do with the revolution.

In the afternoon and at night

there were maneuvers by the United States troops stationed here. This took place in an immense open arena, surrounded by stands for forty thousand spectators. The troops built and blew up a bridge, scaled a perpendicular wall, fought a sham battle, signalled by wireless telegraphy, made pyramids of themselves on baraback horses—all with the precision of clock-work and to the strains of inspiring band music. I confess that I was most interested in the ambulance race, where they climbed fences, rescued wounded soldiers and dashed away with them out of danger. That appeared to me to be every necessary part of their practice, if they are ever to do any real fighting. Perhaps I am too much a man of peace, in this appreciating the rescue of comrades more than the killing of the enemy.

Of course the Reno prize fight received its share of attention. The returns were received and read to waiting crowds at many places. Five thousand paid \$2 a seat to hear the returns at the Coliseum. But the crowd was very much disgusted. It would have been frantic with delight had the white man won. Race feeling, as strong as can be found in the south, was evident, and dominant; everywhere—in the hotels, on the cars and in the surging throng on the street. Of the two and a half millions people of Chicago about 50,000 or two per cent, are negroes. From two per cent, these people are learning what it is to deal, as the South has to deal, with forty per cent. Looking far ahead, and planning for the future, the South could not, for many reasons, adopt a wiser policy than to constantly preach "Go North, go North."

By the way I heard a good sermon Sunday on a peculiar text, it was "Playgrounds." It was a good lecture but hardly a sermon. The best speaker I have heard so far was Dr. Hillis, who is from Brooklyn, I think, and has been in our state.

As for education: I attended the commencement of Hyde Park High School the other night, to see how far they are ahead of Elba and Coffee county. Well, I came away not feeling at all discouraged. In fact I didn't think the exercises were so good as ours. But perhaps I am not an impartial witness.

Do not be alarmed, Mr. Editor, by this long letter, for I shall probably not have time to inflict another one on my indulgent friends.

W. W. Benson.

Hay Fever and Asthma. Bring discomfort and misery to many people but Foley's Honey and Tar gives ease and comfort to the suffering ones. It relieves the congestion in the head and throat and is soothing and healing. None genuine but Foley's Honey and Tar in the yellow package. City Drug Co.

Fire destroyed a barn on Mr. P. J. Ham's lot in Elba early Tuesday night, and called the whole population out to see the sight. We understand the barn was filled with corn and other stock food. The corn escaped with little damage due to the quick and good work of Elba's fire department. When the fire was discovered it did not seem possible for anything to stop it, but the fire fighters were soon on the spot and in a few minutes had the flames under control. The loss will amount to about \$850 but, fortunately, Mr. Ham has a "barrel" of money so he will not feel the loss.

Frederico Ball. Mr. Editor—Please give me space for the base ball news from Freesco.

Freesco's first nine played Victoria and won the game by a score of 23 to 0.

Freesco's second nine played Terrentum and beat them by a score of 18 to 8.

Other scalps will be pulled later. Perry Lambert.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by All Druggists.

There is a new type of citizen now rapidly growing more numerous in our state, that are destined to work wonders in the material development of the land and make this the richest and happiest section of our country. This new citizen is the scientific farmer, the man who works his lands along progressive lines, who knows the value of scientific investigation to agriculture, and knows how best to apply this knowledge to his own particular needs. This is the kind of man that will rule the world and feed it in future. The day has passed when "anybody has sense enough" to farm. The business has passed the stage where it pays to do "old time" farming, and those who will not adopt new methods must go down in hopeless defeat.

Teething children have more or less diarrhea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhea
